**Beginning Work** 

**Insect Control in** 

FAVORABLE COMMENT has been heard from several sources in Hamlin this week with the announcement of the widening, straightening and leveling project on the Anson-to-Hamlin highway section. Contract for the major highway work was let last week by the Texas Highway

Many Hamlin area motorists are elated that the famous five-mile curve near the Wheat Butane Gas Company storage tanks will be straightened.

"That place has been a dangerous corner for years," one fellow remarked, 'that has taken several lives during the period from 1938 when the highway was first built." At that point the new highway will be constructed south of the butane tanks, and a curve of not more than one degree will be constructed.

Other motorists have expressed gratification that the whole highway will be widened to 24 feet, which "will permit easier and safer passing on that busy thorough-

TRITE EXPRESSIONS are contained in the series of little rhymes being promoted by the traffic safety division of the Texas Highway Department. One of such odes follows:

Clear eyes on the road and steady hands on the wheel May avoid an accident that nature cannot heal!

JUST FOR TODAY is the title of a thought-provoking Church that will be good for all people to read:

We can do anything for one day. So, just for today, let us be unafraid of life or death; unafraid to be happy, to enjoy the beautiful, to believe the best. Live today only; forget yesterday and tomorrow. Do not try to solve the whole problem of life at

wants to be. So, just for today let's be agreeable, responsive, cheerful and charitable. Let's be our best, walk softly, praise people. ing their bad; forgive and forget!

DIFFICULTY AROSE the other day between a Hamlin workman and his employer.

It seems the workman got a dollar too much in his pay envelope and didn't say anything about it.

The next week the employer had discovered the error and deducted a dollar

"Say," the fellow said, "I'm dollar short.

"Well," said the employer, "you didn't complain last week when you were a dollar over."

"Yes, but a guy can overlook one mistake; when it happens a second time, it's time to com-

## **Five-Mile Curve** To Be Dedesigned To One Degree

Another major highway improvement project for the Hamlin area was approved last week by the Texas Highway Department when contract was let for strengthening, leveling and straightening of the for their good, instead of criticiz- 15.7-mile stretch of U. S. Highway 83 from Anson to Hamlin.

> This stretch of road, which carries the biggest load of traffic out of Hamlin, has been in need of attention for several years, residents of the section have pointed out. Its improvement will provide a first class thoroughfare for the motorists of a vast Central West Texas territory.

Contract was awarded to Collins Construction Company of Austin, which firm was low bidder on the project. Cost of the project will be \$181,148.

Terms of the contract provide for strengthening the shoulders of the highway all along the 15.7-mile stretch; leveling several irregular spots; and widening the entire roadway from its present 18 feet to a 24-foot width.

Actual construction is slated to get underway April 1, and the contractor has agreed to complete

linoleum, oil cloth and similar products.

## PROSPEROUS INDUSTRY HAS RISEN FROM WASTE

A \$400,000,000 industry is thriving in the nation today, built on a raw material that was discarded as "waste" a century ago. Right here in Hamlin a branch of that industry is one of the community's principal enterprises.

This "waste material" is cottonseed, a commodity that now creates an annual farm income of some \$400,000,000. At one time these precious pellets were considered worthless. Except for a small quantity needed for planting the new cotton crop, cottonseed was dumped in nearby bodies of water or left to rot near the gin.

For each 10 pounds of coton, the plant yields about 180 pounds of seed. Not more than 18 pounds of this seed are needed to plant the next year's crop. The rest goes into hundreds of different products ranging from food to gun-powder.

We actually eat a large portion of this seed. Nearly 100 per cent of the oil ex-

### Editorial of the Week HIGHWAY SAFETY MEASURES

Perhaps one of the most important rules that the State Highway Department should recognize is the physical condition of the driver who holds a driver's license. We are thinking of two physical qualities which affect the driver of a motor vehicle.

The first is good eyesight. If the eyesight of the driver is defective, he cannot possibly be a safe driver on the highway. The eyesight may be so poor that the driver's license should be withheld. It may be impaired and a restricted license could be issued. This restriction could be as to speed and as to zones in which the driver could operate.

Second, the driver's reaction should be positive and immediate. Often a highway accident is prevented by quick reaction of the driver. Sometimes a matter of seconds in deciding the correct procedure will prevent an accident. This being true, the driver who takes minutes to make a decision should not be in possession of a license. Here again a restricted license may solve the problem.

In both cases it might be a hardship on the driver if he be forced to give up all and any driving. The elderly farmer who is dependent upon himself to get his needs from the market might be seriously handicapped without a driver's license. But the case might arise where the safety of all others who use the highways is endangered because of this one driver who should not be behind the wheel in the forthcoming drive, accordhas a driver's license.

In many states attention to the physical condition of individuals applying for a driver's license has paid great dividends. Texas is not lagging behind, but more attention will be needed in this matter of highway safety in the futre.—Fredericksburg Radio-Post.

## **Tapering Off of Marketings of Cows and** Cows Accounts for Gains, Says Gouldy

better than 8,500,000 head. Inroads of the drouth 'continued in some Western sections of the state, and the Eastern third prob-

ably more than held its own. The official guess was 8,501,000 cattle on farms and ranches, one per cent less than a year ago.

Observers at the Fort Worth livestock market noted that mar ke'ings of cows and calves tapered off sharply in the final quarter of 1954, according to Ted Gouldy special market reporter for The Herald, in his weekly release. His report continues: The minecule total change in the total number was not considered surprising.

In fact, some cattlemen at Fort Worth recently expressed the view that if Texas' Panhandle wheat grazing had developed and the cattle in that area had not been moved out so early, ac'ual numbers would have been the same as a year ago.

The state's total cow herd was estimated at 4,815,000, or two per cent smaller. (The nation's calf per cent larger than a year ago Texas looks for another big calf crop in 1955 on the basis of today's cow numbers.

Milk cow numbers are estimat ed at 1,031,000, against 1,052,00 last year. Beef cow numbers estimated at 3,784,000 are two per cent below a year ago.

Fed yearlings and heifers sold around 50 cents lower, and fed at Fort Worth Monday, Cows were strong. Bulls sold fully steady. Slaughter calves were strong to 50 cen's higher, and stockers and feeders were fully steady to strong

## VETERAN **QUESTIONS**

The questions and answers below about veteran problems are carried as a service to present and former service connected personnel by The Herald. Material for this column is supplied by the area office of the Veterans Administration at Lubbock.

Question.-I plan to convert my GI term insurance policy to a permanent plan. Will I have to send VA a new list of beneficiaries, or will beneficiaries already named carry over to my permanent Answer-It is not necessary for

you to submit a new list of beneficiaries when you convert your insurance. The beneficiaries you have named originally will carry over to your permanent insurance You can, of course, change the designation of beneficiaries at any lime you desire. Q.-What is the time limit for

filing a claim for an allowance to cover the burial costs of a vet A .- A claim must be filed with-

in two years from the date of per manent burial of the veteran.

A good reputation always prove to be good business capital.

### **Veterans Reminded** To Report Earnings For 1954 in Training World War II veterans of the

Hamlin area and others making up the nation's 16,000 veterans taking GI bill farm training were reminded this week by the Veterans Administration that reports of their 1954 earnings are due at their VA regional offices not later than March 1, 1955.

Failure to submit the reports by the deadline, VA warned, may result in discontinuation of GI sub sistence payments until such time as the reports do reach VA.

Trainees who have not yet re ceived the report forms may ob

tain them from their instructors. These yearly reports, VA em phasized, do not apply to veterans taking institutional on-the-farm raining under the Korean GI bill, since their monthly allowances are computed on a different basis.

(concluded from page one) the project within 100 working

Major basic improvement in the highway layout will be made at the famous five-mile curve southeast of Hamlin near the Wheat Butane Company's storage tanks. The new highway stretch will be south of the butane station, and a curve of not more than one degree will be constructed there.

A separate contract will be awarded later for the bridge and culvert work on the stretch. The bridges will be widened and the drainage system along them will

#### Sweetheart Banquet At First Baptist Church Held Thursday Eve

About 125 young people between he ages of 13 and 24 were expected to attend the annual spring sweetheart banquet at the First Baptist Church last night (Thursday), according to Rev. Houston Walker, pastor.

A. C. Wimpee of Dallas was slated to be the featured speaker. He is at the present associate in the State Baptist Brotherhood Department, and was formerly stuing lectures in schools and making drys organization. He is a magician of note, and can really keer give them some serious thinking.

B. V. Newberry was general chairman of the banquet, which was to be in the basement of the church. Other committee chairmen were: Mrs. James Simmons. program; Mrs. C. C. Prater, menu; Mrs. Ned Moore, decoration; Mrs. Edgar Duncan, serving; Mrs. Joe Carter, invitation; and Harold Eades, arrangements.

#### Naomi Sunday School Class Donates to Church Paving Fund

Members of the Naomi Sunday School Class of the First Baptist Church voted to donate \$10 to the paving fund of the church when they met Tuesday afternoon in a regular meeting at the home of Mrs. Alton Mayfield. Co-hostesses were Mrs. Clinton Packwood and Mrs. Jeannette Nixon.

Mrs. Ola Stonesifer, president of the class, presided during the business session.

Mrs. Joe A. Simpson brought the devotional, and Mr. Leonard Altum led in the closing prayer. The hostesses served pie and coffee to the following attendants: Mmes. Joe A. Simpson, Leonard Altum, Lula Mae Crawford, Carl Young, A. C. Hall, Weldon Carter, Eva Eades, Connie O'Neal, J. C. Lain, Wallace Walton, Ola Stonesifer, Dan Branscum and Vera Hart.

VISIT FROM FORT WORTH. Linden and Preston Binion of Fort Worth, nephews of Mr. and Mrs. M. T. Hudson, were visitors in the Hudson home over the week-end.

#### "Hot Flashes Stopped" or strikingly relieved in 63-80% \* of cases in doctors' tes

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily. Por ... in tests by doctors . Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these aedicines thoroughly modern in action . has shown you where took for relief from those distressing nervous, "out of sorts" feelings of mid-life "change"!

So. get Lydia E Pinkham's Vegeable Compound—or new, improved fablets with added iron! (Wonderful, too, for the functional pains chanstrual periods.)

## It's highway robbery!

For sheer fun out on the road. Chevrolet's stealing the thunder from the high-priced cars!

Up to this year, maybe there were reasons for wanting one of the higher-priced cars. If you demanded something really special in the way of driving fun, you simply had to pay a premium to get it.

Not any more! The Motoramic Chevrolet has changed

all that. Who could wish for more excitement than the

new 162-h.p. "Turbo-Fire V8" delivers? (For those who do, 180-h.p. is optional at extra cost in all V8 models.) Chevrolet also offers the two highest powered

Come in and see how the Motoramic Chevrolet is stealing the thunder from the high-priced cars!

### but octane alone is not enough ... New No-Nox burns clean!

Only a gasoline that burns clean can make its full octane power really work for you.

Instead of trying to fight harmful deposits with so-called "miracle additives"-inside your engine-Gulf believes in preventing them from forming in the first place; removes the cause—the "dirty-burning tailend" of gasoline-at the refinery.

The plates in the photo show what a disference Gulf super-refining makes!

and clean-burning No-Nox gives your engine... more complete protection!

Gulf treats new NO-NOX to protect every part it touches against harmful deposits.

See for yourself: Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirtyburning tail-end" of gasoline that Gulf refines out. Both pistons, at left, from Gulf test engines, ran the same number of hours under the same conditions.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts. You'll get:

- More complete engine protection than with so-called "miracle-additive" gasolines. • Extra gas mileage in the short-trip, stop-
- and-go driving motorists do most. • Stall-proof smoothness . . , instant starts ... fast, fuel-saving warm-up.
- . No knock, no pre-ignition even in today's high-compression engines.

It's super-refined ... to burn clean! The '55 gasoline for all high-compression engines GULF'S PLEDGE to the motoring public

· We at Gulf make this promise to America's motorists. We will not permit a single competitor -no, not a single one-to offer a gasoline su perior to our own superb No-Nox.

• It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest-in power, in performance, in engine pro-

· This is not a boast, not a claim. It is a pledge to you, the motoring public-a pledge backed by all the resources-and the integrity-of the Gulf

LAST WEEK'S AERIAL PICTURE apparently was the toughest one The Herald has yet run in the series—if the number of correct identifications is to be taken as a measure. Leonard Johnson, seventh person to guess at the picture's identity, corectly named the place as that of Mr. and Mrs. C. B. Owen, three miles west of Hamlin. The 150-acre farm is being devoted to cotton and wheat, and is being farmed by Johnson.

## **Toughest Picture** In Series Identified Those of Year Ago By Seventh Person

Last week's mystery farm picure must have been a "lulu" betified until the seventh person had guessed whose place it was. Because of the angle from which the aerial picture was made, the print was not quite as clear as previous views in the series, The Herald publisher pointed out.

Leonard Johnson was the first to correctly identify the fifth in the series of mystery farm pictures being printed by Your Home Town Paper as the C. B. Owen place, three miles west of Hamlin. He will receive aone-year subscription to The Herald.

The 150-acre Owen place is being worked this year by Leon-Crockett, was purchased several years ago by Mr. and Mrs. J. C. Owen, who farmed the place until Mr. Owen's death eight years

ago. Mr. and Mrs. C. B. Owen. who now occupy the home on the place, recently returned from a tour of duty with an oil company in Venezuela

The younger Owens have re cently improved the place, adding a living room, porch, half bath and a walk-in closet. Mrs. Owen the former Lamoine Preston, and her husband were married in 1939. Cotton Allotments They are the parents of a threebirthday was February 11.

About 100 acres of the Owen place is in cultivation, being devoted to wheat and cotton, and the the county are reminded by M. S. balance is in pasture.

## Farmers and Ranchers of Area Urged to Start Planning for Soil Building Crops

Now is the time for farmers instructions can be obtained from and ranchers in the Hamlin area any of the farmers listed below or and others in the California Creek from your district supervisors or Soil Conservation District to be Soil Conservation Service technimaking definite plans for planting guar and blue panic grass, officials of the district advise is a special release to The Herald.

loving legume, has shown that it is very adapted to the soils and Rowland and M. D. Thompson of climate of our district. Besides being a soil improving crop and Jerry Maberry and Willis Maberry adding approximately 30 pounds of Hamlin. of nitrogen per acre, it is also a cash crop. The seed of the guar plant are in demand by a process ing firm at Kenedy.

Visit your neighbor who has planted guar and observe his results, urged the soil district leaders. Some of the farmers in the district who have planted guar are Joe Culbertson of Hamlin; Hiram E. Olson, H. B. Hatarius and B. O. Youngquist of Avoca; Weldon Walker, Jim McCulloch and Norris Russell of Stamford; Larry of Anson; and Bruno Kupatt of

Planting time for guar is June brough July. Seed are planted at the rate of six to eight pounds per acre in rows. Plant with same setting and depth as maize.

Blue panic grass has been planted in this area for the past 10 years. It has proven itself as a good grass by being able to hold its own against dry weather and inadequate moisture. Last year on the B. O. Youngquist farm blue panic grass planted side by side with sudan grass stayed green and produced grazing even though the sudan grass had dried up and hocome dormant due to the hot, dry weather. Ask Mr. Youngquist how he likes it.

Blue panic grass, unlike sudan, s planted only once and comes up every year from the roots. It should only be planted on cultivated land as one or two plowings are needed to keep it from becoming sod bound. Over 1,000 acres were planted last year. Planting

NUMBER 17

10 CENTS A COPY

FAVORABLE COMMENT has been heard from several sources in Hamlin this week with the announcement of the widening, straightening and leveling project on the Anson-to-Hamlin highway section. Contract for the major highway work was let last week by the Texas Highway Department.

Many Hamlin area motorists are elated that the famous five-mile curve near the Wheat Butane Gas Company storage tanks will be straightened.

"That place has been a dangerous corner for years," one fellow remarked, 'that has taken several lives during the period from 1938 when the highway was first built." At that point the new highway will be constructed south of the butane tanks, and a curve of not more than one degree will be

Other motorists have expressed gratification that the whole highway will be widened to 24 feet, which "will permit easier and safer passing on that busy thorough-

TRITE EXPRESSIONS are contained in the series of little rhymes being promoted by the traffic safety division of the Texas Highway Department. One of such odes follows:

Clear eyes on the road and steady hands on the wheel May avoid an accident that nature

JUST FOR TODAY is the title of a thought-provoking item in a recent issue of the bulletin of the First Methodist Church that will be good for all people to read:

We can do anything for one day. So, just for today, let us be unafraid of life or death; unafraid to be happy, to enjoy the beautiful, to believe the best.

Live today only; forget yesterday and tomorrow. Do not try to solve the whole problem of life at

The chief messaged back: "Al plete confessions."

day) evening at the Primary School cafetorium will be the five present members of the Hamlin Rotary Club shown here who were charter members of in Hamlin 27 years ago. They are (reading from left to right, top to bottom rows): Elmer C. Feagan, C. G. Green, Tate May, Bowen Pope and Arthur Albritton. The banquet will be commemorating 50 years of service of Rotary International. 8 The program will feature entertainment numbers, talks by various local Rotarians, District Governor Warren Tayman of Stamford; Ellis Boyd, who presented the charter; and Dr. Truett Walton of H-SU of Abilene.

## Hamlin-Anson Highway Will Get Major Improvements

## **Five-Mile Curve** To Be Dedesigned To One Degree

Another major highway improvement project for the Hamlin area wants to be. So, just for today was approved last week by the let's be agreeable, responsive, Texas Highway Department when contract was let for strengthening, leveling and straightening of the 15.7-mile stretch of U.S. Highway 83 from Anson to Hamlin.

This stretch of road, which carries the biggest load of traffic out of Hamlin, has been in need of attention for several years, resi dents of the section have pointed out. Its improvement will provide a first class thoroughfare for the motorists of a vast Central West

Contract was awarded to Collins Construction Company of Austin which firm was low bidder on the project. Cost of the project will be \$181,148.

Terms of the contract provide for strengthening the shoulders of the highway all along the 15.7-mile stretch; leveling several irregular spots; and widening the entire roadway from its present 18 feet to a 24-foot width.

Actual construction is slated to get underway April 1, and the Baptist Church.

See HIGHWAY WORK-Page 2 vited to attend.

REELECTED-C. L. Howard, Hamlin druggist, was reelected president of the local council of the Camp Fire Girls in a business session of the administrative council last Thursday at the hut. Weldon Johnson was made vice president. (See story on page four).

#### School Tax Collections For 1954 92 Per Cent

Collections of approximately 92 per cent of the \$214,375 assessed taxes for 1954 had been paid by February 1, according to Haskell Carter, tax assessor-collector f the Hamlin Consolidated Inde pendent School District.

Considering conditions in th community, this percentage of collections is especially good, Car-

The tax roll was on the basis of aluations in the 255-square mile district of \$17,150,000 with a tax ate of \$1.25 per \$100 valuation.

True to previous exhibitions, mid-week revealed that the Hamlin America would have 101 entries 4-H Club will have about 16 en-

uled to be placed in the show a Primed for the show were these

#### entries from the FFA chapter, under sponsorship of T. C. Blank inship and Harold V. Eades: 10 steers, 10 dairy animals, 16 breeding swine, 29 fat swine and 30

Representatives of the 4-H Club will enter two beef steers, 12 or more capons, and at least four

Club boys from all parts of the county will be vieing for \$1,200 in cash awards, and seven grand trophies that will go to the grand champions in each division.

## **Pledges to Become** Due April 1 Before **Beginning Work**

Half-way mark to raise \$20,000 for the Hamlin community swimming pool was near when tabulations were made late Wednesday after only five days of solicitation. reported Jack Russell, campaign director reported.

Total of approximately \$9,200 had been pledged toward the goal when only about 125 contributors teams. The solicitors were recruited from 14 service and wom-

only pledges were being taken for the community project, with payment of the pledges expected to be made by April i, cussell declared.

Practically all the pledges so for secured were from individuals and families. This portion of the drive has for its goal \$10,000, the

week to keep the public informed on progress of the drive. The donation thermometer is being made by the Beta Sigma Phi so-

Reports from other solicitors are due to be turned in during the coming few days, Russell says, who said he hoped the two-week deadine originally set could be main-

#### CC Membership Drive Being Pushed in Area

Enlargement of membership in the Hamlin Chamber of Commerce was being continued this week by various workers, according to CC President Delma Shelburne. More than 200 prospects for the community civic organization were assigned to teamsters.

## PROSPEROUS INDUSTRY HAS RISEN FROM WASTE

nation today, built on a raw material that was discarded as "waste" a century ago. Right here in Hamlin a branch of that industry is one of the community's principal

This "waste material" is cottonseed, a commodity that now creates an annual farm income of some \$400,000,000. At one time these precious pellets were considered worthless. Except for a small quantity needed for planting the new cotton crop, cottonseed was dumped in nearby bodies of water or left to rot near the gin.

For each 10 pounds of coton, the plant yields about 180 pounds of seed. Not more 38 per cent of the total farm marketings. than 18 pounds of this seed are needed to plant the next year's crop. The rest goes into hundreds of different products ranging from food to gun-powder.

We actually eat a large portion of this seed. Nearly 100 per cent of the oil ex- ous is everybody's business.

A \$400,000,000 industry is thriving in the | tracted from cottonseed is used in edible products such as vegetable shortening, margarine, salad and cooking oils, salad dressing and mayonnaise. Some cottonseed oil is used in manufacturing washing powder, paints, linoleum, oil cloth and similar products.

> The seed is just a part of the picture, however. In Texas, the largest cotton producing state, the total crop value amounts to some \$812,345,000 annually. It is grown on 153,177 farms, or 46 per cent of the total farms in the state. We produced approximately 4,350,000 bales of cotton and some 1,803,000 tons of cottonseedlast year.

> Cotton and its by-products accounted for They brought to some 1,793 gins, 113 warehouses, 87 oil mills and 53 textile mills in the state—and to thousands more who are benefitted by their payrolls.

That's why keeping Texas cotton prosper-

### If I Had a Million . . .

Have you ever harbored the thought that "if you had a million" you would be able to afford the pleasure of aiding this poor family or of contributing to that church or hospital? "I know I would not be selfish as many rich people are," you tell yourself. "Why if I had a million," you dream on, "I would gratify my benevolent impulses."

Hold it right there! Your imagination is misleading you. Actually, if you did have a retton dollars, you would be no more lib eral toan you are now.

The amount of charity you dispense does not depend on the size of your income. If you are doing nothing for others now, you would do the same if you received \$50,000 a month. You would be just as wrapped up in yourself as you are now—and wrappeder.

For it is a well established fact that one's altruistic impulses decrease in force as one's wealth grows. The kindest, most generous and charitable people in the world are those who have little or nothing. The best friends to the poor are the poor.

And you, if you have the root of the matter in you, can be as benevolent as the most lavish millionaire. What you need is not the money but the disposition.

For the one thing to give in this world, the one thing that is worthwhile, the one thing that cheers us all and adds joy to the soul, is yourself!

## Your John Hancock

Because his name came first on the list of signers of the Declaration of Independenceand partly, perhaps, because it was written so boldly-it has become a synonym for signature, and we frequently say, "Put your John Hancock there."

It is unfair that the American statesman should be known to posterity for only this reason, thought it is one of which to be proud. John Hancock was an earnest worker for the cause of freedom, and on one occasion in particular demonstrated to what lengths he would go.

During the siege of Boston, General Washington consulted Congress upon the propriety of bombarding the town. His letter was read to Congress, of which Mr. Hancock was president. At first there was silence, then a member made a motion that the house should resolve itself into a committee of the whole, in order that Mr. Hancock might give his out a driver's license. But the case might opinion, since all of his property was located arise where the safety of all others who use in Boston.

Leaving his chair, John Hancock addressed the chairman of the committee as follows: "It is true, sir, nearly all of the property I have in the world is in houses and other real estate in the town of Boston; but if the liberties of this country require their being burnt to ashes-issue the order for that purpose immediately!"

### Worthy Objectives

To reap the crops from the field of knowledge, thresh them out, and garner them in my storehouse.

To make myself ready, so that opportunity will not pass me by.

To do the rational thing without being told. To make every hour bring increased knowl-

edge, and never let time find me idle. To study my profession with unremitting

To convert practice and experience into capital stock for future use.

To force my way through all difficulties with the most vigorous determination.

To be honest and generous.

To attain an agreeable personality, and be

To feel pleasure and pain, right and wrong. To be gentle both to my superiors and to

To make the most of myself with the hope of achieving the greatest of all rewards—a

## Editorial of the Week

HIGHWAY SAFETY MEASURES

Perhaps one of the most important rules that the State Highway Department should recognize is the physical condition of the driver who holds a driver's license. We are thinking of two physical qualities which affect the driver of a motor vehicle.

The first is good eyesight. If the eyesight of the driver is defective, he cannot possibly be a safe driver on the highway. The eyesight may be so poor that the driver's license should be withheld. It may be impaired and a restricted license could be issued. This restriction could be as to speed and as to zones in which the driver could operate.

Second, the driver's reaction should be positive and immediate. Often a highway accident is prevented by quick reaction of the driver. Sometimes a matter of seconds in deciding the correct procedure will prevent an accident. This being true, the driver who takes minutes to make a decision should not be in possession of a license. Here again a restricted license may solve the problem.

In both cases it might be a hardship on the driver if he be forced to give up all and any driving. The elderly farmer who is dependent upon himself to get his needs from the market might be seriously handicapped withthe highways is endangered because of this one driver who should not be behind the wheel has a driver's license.

In many states attention to the physical condition of individuals applying for a driver's license has paid great dividends. Texas is not lagging behind, but more attention will be needed in this matter of highway safety I in the futre.—Fredericksburg Radio-Post.

## RECALLING

& Being news items taken from old files of Your Home Town Newspaper The Herald

#### TWENTY YEARS AGO.

From the issue of The Hamlin Herald dated February 22, 1935, the following items of interest of 25 years ago are reproduced:

Mrs. Florence Morgan reports that her son, Eugene, who recent ly joined the Navy, is getting along fine at San Diego, Califor-

seven days straight preceding Wednesday some form of moisture has fallen at Hamlir every day, totaling nearly four nches. Hamlin's streets are famous for mud and slush, and they still keep that characteristic.

Honor roll for Hamlin High School students was released this grazing had developed and the week, which contained the followng names: Freshmen - Olett King, Mary Emily Eakin, Johnny

Dixon, Katherine Gardner and ydia Garrett; sophomores-Virnia Collins, Melva Ramsel, J. B Terrell and Willie Walker: jun ors - Victoria Crow, Avaleen Jurphree, Betty Mylre Routh and C. J. Adams; seniors—Wynell Cox, Marvin-York, Ethelyn Allen, Fay Dell Shelton, Leone Bowman, and Rowena Davis.

Elsie Weinke and Sarah Nichol son of the Weinke Beauty Parlor attended a beauty school at Lubbock first of the week.

#### TEN YEARS AGO.

From the issue of The Hamlin Herald dated February 23, 1945. he following items of interest of 10 years ago in the community are reproduced:

A wedding of local interest to Hamlin friends took place February 4 at 3:00 o'clock in the drawing room of the Three Arts Clu in Chicago, Illinois, when Maxin Brundage, daughter of Mr. and Mrs. B. M. Brundage of Hamlin, became the bride of Ensign Ralp

H. Worley of the U. S. Navy. Mr. and Mrs. Weldon Carlton and son, Jerry, of Holdanvill Oklahoma, were here this week isiting homefolks.

Mrs. C. F. Butcher, local Re-Cross campaign fund chairman, announces that Hamlin's quote has been set at \$3,000 for the cur-

Lynna Jenkins of San Angelo was honored at the J. C. Bessire home with a party given by Kay Kraigolyn. iin School system, it is announced Construction on the big \$500,000 gas plant of the Texas Pacific Coal & Oil Company has begun on the Holley Toler place, sever miles northwest of Hamlin.

## Tapering Off of Marketings of Cows and Cows Accounts for Gains, Says Gouldy

J. S. Department of Agriculture breeders aimed at this specialty how Texas' cattle population still better than 8,500,000 head. Inroads of the drouth 'continued in some Western sections of the state, and the Eastern third probably more than held its own.

The official guess was 8,501,000 cattle on farms and ranches, one per cent less than a year ago.

Observers at the Fort Worth livestock market noted that mar ce'ings of cows and calves tapered off sharply in the final quarter of 1954, according to Ted Gouldy special market reporter for The Herald, in his weekly release. His report continues: The minecule total change in the total numbers was not considered surprising.

In fact, some cattlemen at Fort Worth recently expressed the view that if Texas' Panhandle wheat cattle in that area had not been moved out so early, ac'ual numbers would have been the same

The state's total cow herd was estimated at 4,815,000, or two per ent smaller. (The nation's calf crop last year was estimated three per cent larger than a year ago) Texas looks for another big calf rop in 1955 on the basis of today's cow numbers.

Milk cow numbers are estimated at 1,031,000, against 1,052,000 last year. Beef cow numbers estimated at 3,784,000 are two per cent below a year ago.

Fed yearlings and heifers sold around 50 cents lower, and fed steers were 25 to 50 cents lower at Fort Worth Monday. Cows were strong. Bulls sold fully steady. Slaughter calves were strong to 50 cen's higher, and stockers and feeders were fully steady to strong

Choice fed steers and vearling drew \$22 to \$24, and were quot able to \$95 or better. Fat cow drew \$11 to \$14, and canners and culters sold from \$7 to \$11.50 Bulls cashed at \$10 to \$14.50.

Good and choice slaughter calves sold from \$17 to \$21.50, a few higher. Common and medium orts sold from \$10 to \$17.

Stocker steer calves of the better kinds sold from \$18 to \$22, and steer yearlings sold from \$21.50 lown. Stocker cows cashed at 10 to \$13.

The U.S. Department of Agri culture reported that Texas' sheep population was estimated at 4,191. in Central and Eastern parts of Texas offset any further decrease n the Western parts of the state

Fort Worth market men special ing in sheep reported some shift parts of the state than a year ago Considerable feeding has resulted n a hig percentage of fat lamb early this year.

The Easter market will develo arlier and those milk lambs of the new crop variety should move

Estimates just released by the a little earlier than usual where trade. A few lots of genuine spring lambs are already appear-

ing in the runs at Fort Worth. The sheep population is 31 per cent under the 10-year average. Breeding ewes number 3,665,000, and ranchmen are reputedly holding near 1,000,000 ewe lambs for stocking purposes, some 24 per cent above a year ago.

Good and choice fat lambs sold or \$18 to \$21, wooled lambs and milk fat lambs at the higher figare. Feeders sold at \$20 downward. Yearlings drew \$12 to \$17 and aged wethers drew \$14 down. Ewes sold from \$6 to \$9, and old bucks sold around \$5 to \$7.

Estimates of 1,087,000 swine or Texas farms is 20 per cent above a year ago, when the all-time rec ord low was tabulated at 906,000 head. Ten-year average swine population for Texas is 1.850.000 heads. Further expansion of production is expected but at a slower

Market men at Fort Worth say the development of a better mar ket for meat type hogs here is an encouraging sign. Monday's top was \$17.75, and sows sold from \$16, down.

(concluded from page one) will be secured, the pool can be built for approximately half of what it might cost if a bond issue or other public plan were utilized. The pool project definitely is not a city project, but a cooperative move by the people of the entire Hamlin community.

People of the Neinda commun ty have been especially cooperave in the swimming pool move A benefit program was staged las Friday at the Neinda community center, and net proceeds were armarked for the pool.

Russell declared that the continued enthusiasm of solicitors at work on the project, parents of children who would use the pool and business men is urged to keep the fund raising campaign on the go until the goal of \$20,000 is

### USELESS JOB.

The famous psychologist had finshed his lecture and was answering questions from listeners. Fi-

nally, a meek little man asked: "Did you say that a good poker player could hold down any kind of executive job?" "That's right," answered the

lecturer. "Does that raise a question in your mind?" "Yes," replied the meek man. "What would a good poker player

want with a job?"

NEW PREXY - Dr. Guy D. Newman, promotional vice president of Baylor University at Waco, has accepted the presidency of Howard Payne College at Brownwood, effective June 1. Dr. Newman will succeed Dr. Thomas H. Taylor as president of the Brownwood school.

## VETERAN **QUESTIONS**

a service to present and former service connected personnel by The Herald. Material for this column is supplied by the area office of the Veterans Administration at Lubbock.

Question.-I plan to convert my GI term insurance policy to a permanent plan. Will I have to send VA a new list of beneficiaries, or will beneficiaries already named carry over to my permanent

Answer-It is not necessary for you to submit a new list of beneficiaries when you convert your insurance. The beneficiaries you have named originally will carry over to your permanent insurance You can, of course, change the designation of beneficiaries at any lime you desire.

Q.-What is the time limit for filing a claim for an allowance to cover the burial costs of a vet

A.-A claim must be filed within two years from the date of pernanent burial of the veteran.

A good reputation always prove to be good business capital.

#### **Veterans Reminded** To Report Earnings For 1954 in Training World War II veterans of the Hamlin area and others making

up the nation's 16,000 veterans taking GI bill farm training were reminded this week by the Veterans Administration that reports of their 1954 earnings are due at their VA regional offices not later than March 1, 1955.

Failure to submit the reports by the deadline, VA warned, may result in discontinuation of GI subsistence payments until such time es the reports do reach VA.

ceived the report forms may obain them from their instructors. These yearly reports, VA emphasized, do not apply to veterans taking institutional on-the-farm training under the Korean GI bill, ince their monthly allowances are computed on a different basis.

## No gasoline-no, not a single one-has higher octane than

## New 1955 GULF NO-NOX

### but octane alone is not enough ... New No Nox burns clean!

Only a gasoline that burns clean can make its full octane power really work for you.

Instead of trying to fight harmful deposits with so-called "miracle additives"-inside your engine-Gulf believes in preventing them from forming in the first place; removes the cause—the "dirty-burning tailend" of gasoline-at the refinery.

The plates in the photo show what a difference Gulf super-refining makes!

### and clean-burning No-Nox gives your engine... more complete protection!

Gulf treats new NO-NOX to protect every part it touches against harmful deposits.

See for yourself: Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirtyburning tail-end" of gasoline that Gulf refines out. Both pistons, at left, from Gulf test engines, ran the same number of hours under the same conditions,

- with so-called "miracle-additive" gasolines.
- and-go driving motorists do most. • Stall-proof smoothness . . , instant starts
- No knock, no pre-ignition even in to-

It's super-refined ... to burn clean!

GULF'S PLEDGE to the motoring public

- · We at Gulf make this promise to America's motorists. We will not permit a single competitor -no, not a single one-to offer a gasoline si perior to our own superb No-Nox.
- . It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest-in power, in performance, in engine pro-
- . This is not a boast, not a claim. It is a pledge to you, the motoring public-a pledge backed by all the resources—and the integrity—of the Gulf

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts. You'll get:

- More complete engine protection than . Extra gas mileage in the short-trip, stop-
- ... fast, fuel-saving warm-up.
- day's high-compression engines.

The '55 gasoline for all high-compression engines

## Middle Age Adds to Health Problem, But Regular Examinations Will Aid Many

who is 40 years old and over, and ery and continued good health he will tell you that the matter and prolonged invalidism. It is of his health becomes of more difficult to say which of these and more concern after the four- phases is the more mportant.

From a health standpoint, life after 40 begins to be more complicated for the average individual. According to information from the from them tend to live longer, State Department of Health, the principal health foes confronting people in middle life are heart a chance and go to the doctor only disease, cancer, kidney disease, high blood pressure, hardening of the arteries, apoplexy, diabetes and athritis.

Middle-aged people of today are healthier than were those of preceding generations, and the present generation, when they reach middle age, should enjoy even better health than their parents

Medical care in middle life has two important phases. The first is going to the doctor at regular intervals for a complete physical check-up, whether or not there have been symptoms that suggest the need for medical attention. The second is prompt attention to cover to lead useful and producany illness which may mean the live lives.

Ask anybody in the Hamlin area | difference between prompt recov-

who faithfully pursue the habit of regular health examinations and who follow the advice arising age respond to treatment in early stages, whereas if neglected until later stages they often cause per manent invalidism and even death For persons over 40 especially the State Department of Health rerommends regular physical exminations and prompt medical

LAST WEEK'S AERIAL PICTURE apparently was the toughest one The Herald has yet run in the series—if the number of correct identifications is to be taken as a measure. Leonard Johnson, seventh person to guess at the picture's identity, corectly named the place as that of Mr. and Mrs. C. B. Owen, three miles west of Hamlin. The 150-acre farm is being devoted to cotton and wheat, and is being farmed by Johnson.

## **Toughest Picture** In Series Identified Those of Year Ago By Seventh Person

Last week's mystery farm piccause it was not correctly idenhad guessed whose place it was. the aerial picture was made, the previous views in the series. The

Herald publisher pointed out. Leonard Johnson was the first to correctly identify the fifth in the series of mystery farm pictures being printed by Your Home Town three miles west of Hamlin. He will receive aone-year subscription to The Herald.

The 150-acre Owen place is being worked this year by Leonard Johnson. The place originally owned by a man by the name of Crockett, was purchased several years ago by Mr. and Mrs. J. C Owen, who farmed the place unago. Mr. and Mrs. C. B. Owen who now occupy the home on the place, recently returned from a tour of duty with an oil company

n Venezuela. The younger Owens have re cently improved the place, adding living room, porch, half bath and a walk-in closet. Mrs. Owen the former Lamoine Preston, and her husband were married in 1939. rear-old son, Michael Dale, whose

birthday was February 11. About 100 acres of the Owen place is in cultivation, being devoted to wheat and cotton, and the balance is in pasture.

## Farmers and Ranchers of Area Urged to Start Planning for Soil Building Crops

and ranchers in the Hamlin area any of the farmers listed below or and others in the California Creek from your district supervisors or Soil Conservation District to be making definite plans for plant ing guar and blue panic grass, officials of the district advise is special release to The Herald.

Guar, a drouth resistant, suns very adapted to the soils and being a soil improving crop and adding approximately 30 pounds of nitrogen per acre, it is also cash crop. The seed of the guar plant are in demand by a process ing firm at Kenedy.

Visit your neighbor who ha planted guar and observe his re sults, urged the soil district leaders. Some of the farmers in the district who have planted guar are Joe Culbertson of Hamlin; Hiram E. Olson, H. B. Hatarius and B. O. Youngquist of Avoca; Weldon Walker, Jim McCulloch and Norris Russell of Stamford; Larry Adamson and Webb Beauchamp of Anson; and Bruno Kupatt of

Planting time for guar is June through July. Seed are planted at the rate of six to eight pounds per acre in rows. Plant with same setting and depth as maize.

Blue panic grass has been plant its own against dry weather and panic grass planted side by side with sudan grass stayed green and produced grazing even though the sudan grass had dried up and he come dormant due to the hot, dry weather. Ask Mr. Youngquist hov he likes it.

Blue panic grass, unlike sudan, is planted only once and comes up every year from the roots. It should only be planted on cultivated land as one or two plowings are needed to keep it from becoming sod bound. Over 1,000 acres were planted last year. Planting
